Amendments to the Drawings

The attached sheet of drawings includes changes to Fig. 9. This Fig. 9 replaces the original Fig. 9.

"Character Size" has been designated "S" in Fig. 9, and the line returning from the output of box 909 to the input of box 913 has been redirected to the input of box 910. Support for the amendments to Fig. 9 may be found at page 12, lines 2-24 of the specification as filed originally, and in Fig. 8, in which intermediate data files of hierarchy 1 to hierarchy 3 are created, and then the intermediate data files of the respective hierarchies are constituted as image files. It is submitted that persons of skill in the art would recognize that the process ought to convert remaining data into an image, as in box 911, after a hierarchy has been created, as in box 909. No new matter has been added.
